

The Coffin and Casket Selection

*“we understand that
family is not just important
it is everything”*

Golden Charter
Funeral Plans 

Introduction

The coffins and caskets shown in this selection are manufactured by one of the Country's leading and long established companies using skilled craftsmen and traditional manufacturing techniques.

All products featured in this brochure are manufactured from managed sustained yield forests where management and replanting are government supervised.

Colours and models can be combined to meet individual requirements and most models are suitable for both burial or cremation purposes, however, some models may require a change of furniture in order to comply with burial or cremation authority regulations. We recommend you enquire with your Funeral Arranger prior to selecting your chosen model.

Disclaimer:

The products are of natural wood grain. Colours can vary, dependant on the grain of the material.
